Storage Instructions for Forane® 22

Cylinders: This product is a liquid and gas under pressure. Overheating or over pressurizing may cause a gas release or violent cylinder bursting. The product may decompose on contact with flames or extremely hot metal surfaces to produce toxic and corrosive products. Do NOT apply a direct flame to the cylinder. Do not store the cylinder in direct sun or expose it to heat above 120°F. Do not drop or refill cylinders. Keep this product away from heat, sparks and flames.

Shipping Instructions for Forane® 22

Forane® 22 and recovered Forane® 22 are considered DOT regulated hazardous materials for which the following procedures apply:

1. Ensure that cylinder valves are tight and check for leaks if necessary. Ensure that the valve outlet cap is in place. NOTE: Leaking cylinder cannot be shipped.
2. Shipping papers should include the following information:
 - Address of shipper
 - Number of each container type by refrigerant
 - Gross weight of container(s)
 - Shipper's 24 hour emergency response number
 - Authorized Signature
3. If the total gross weight of all the refrigerant containers being shipped is 1000 lbs or more the shipper must assure that the carrier's vehicle is properly placarded with **Nonflammable Gas, 1018** Placards.
4. The proper shipping description for this product is as follows:
Chlorodifluoromethane (R-22), 2.2 Nonflammable Gas, UN 1018.
