

TECHNICAL DATA SHEET

Orgasol® Restore

Definition:	Orgasol® Restore is an active Copolyamide 6/12 powder that delivers ceramides.
INCI Name:	Nylon 6/12 (and) Olive glycerides (and) Ceramide-3
Japan Name:	Nylon 6/12 / Olive glycerides / Ceramide-3

MAIN APPLICATIONS

Colour cosmetics: liquid and compact foundations, concealers, compact powders, lipsticks, lip-glosses.

Orgasol® Restore is the perfect ingredient to rebuild the skin barrier function with active make up products. It has been designed to maximize ceramides delivery into the stratum corneum and thus reinforce the “bricks and mortar” structure that guaranties the integrity of the skin. It restores the hydrolipidic film and decreases the water loss.

Thanks to the daily use of colour cosmetics that contain Orgasol® Restore, the skin recovers its smoothness and is able to hold moisture reducing wrinkles and fine lines. The skin structure is reinforced, restoring its tonicity and suppleness.

CHARACTERISTICS

Level of ceramides solution in glycerides

> 20 %

Appearance

White spheroidal powder

Diameter:

Approx 10 microns

Micro-organisms **

Bacteriology

< 100 cfu/g

Mycology

< 100 cfu/g

METHOD

Arkema*

Visual

ISO 13319

ISO 21149

Arkema*

* Arkema analytical methods are available upon request.

** No guarantee could be given on the level of micro-organisms for samples.

PACKAGING

5 Kg drums
