Colombes, January 26, 2010

Attn: To whom it may concern

O/ réf : FT/1400

Subject: Residual solvent declaration

Name of Product : Dimethylsulfoxide (DMSO)
Grade : DMSO HP
Manufactured at Lacq (France) - 2010 Production

Dear Customer,

We inform you that solvents are not used during the manufacturing of the above-mentioned product.

However, the raw material (DMS: Dimethylsulfide), used for the manufacture of DMSO HP, is produced from methanol.

Therefore traces of methanol could be expected in DMSO HP itself.

This is confirmed by analysis carried out on DMSO HP, for which the levels methanol were found to be lower than 10ppm (quantification limit).

Moreover, DMSO HP is itself a solvent with a purity above 99,9%.

Should you need more information, please do not hesitate to contact us.

Yours truly,

A handwritten signature in black ink, appearing to read "F. Truchet".
