

## PRODUCTION PLANT IN ALSIP Illinois - USA

The Alsip, Ill. plant manufactures a range of latex emulsion products that we supply to a variety of markets including coatings, adhesives, building & construction, and transportation infrastructure.

Key building blocks include vinyl acetate, styrene and acrylic monomers, such as butyl acrylate and methyl methacrylate. We use them to produce water-based specialty polymers which are critically important raw materials for leading manufacturers of architectural paints, industrial coatings, road markings, construction adhesives, sealants/caulks and pressure sensitive adhesives for labels and tapes. Visit the [Coating Resins website](#) for more information.

### COMMITMENT TO SAFETY AND THE ENVIRONMENT

- A **daily safety review** during every shift
- **Improvement Idea Tool** that allows for safety suggestions as well as other improvement ideas
- **Review of every safety suggestion** during monthly team meetings
- Hazardous waste operations emergency response (HAZWOPER) and **confined space rescue trained employees**
- Personnel trained in **First Aid, CPR, AED** (Automated External Defibrillation)
- Member of **CHEMTREC®** (Chemical Transportation Emergency Center)
- Employee led teams that enhance safety include **Behavioral Based Safety (BBS) training, process safety, winterization, recognition team and 5S**

### COMMUNITY INVOLVEMENT

- **Chemical Industry Council of Illinois (CICI)**
- **Community support** - The plant supports the local community through donations and participation in community programs such as food drives and National Night Out event for drug and crime prevention.
- **Emergency response drill**

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 92% of Group sales in 2023, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around € 9.5 billion (\$10.3 billion USD) in 2023, and operates in some 55 countries with 21,100 employees worldwide.

### KEY FIGURES 2023

45 employees  
\$7.5 million in local impact (includes payroll/utility/property taxes)  
\$900,000 investment in health, environment, and safety  
11 years without a lost-time injury  
Celebrated 50 years continuous operation

### AWARDS AND CERTIFICATIONS

- ISO 9001:2015 certification
- ISO 45001:2018 certification
- RCMS
- American Coatings Association Safety Award of Excellence
- American Chemistry Council Responsibility Care® Certificate of Excellence
