

## PRODUCTION PLANT IN BEAUMONT

Texas - USA

The Beaumont plant produces methyl mercaptan, ethyl mercaptan, dimethyl sulfide (DMS) and methylmercapto-propionaldehyde (MMP).

Our products are key ingredients in the manufacture of biodegradable herbicides, pesticides and animal feed supplements. These products are also used in the production of pharmaceuticals, photographic chemicals and circuit boards.

Ethyl mercaptan is primarily used as an odorizer for propane gas, sold through Arkema's odorants business. MMP is used in the production of methionine, an essential amino acid and a key component of poultry, swine and ruminant (cattle, sheep, etc.) feed.

### COMMITMENT TO SAFETY AND THE ENVIRONMENT

- **Mechanical asset replacements/upgrades** to maintain a modern facility and reduce environmental emissions.
- Employees are **trained thoroughly** both before beginning their jobs and routinely after.
- Beaumont **Emergency Response Team** employees are trained in all aspects of emergency response including; **rescue, HAZ-Mat, medical** and **fire fighting**.
- **Behavior Based Safety** – Our BBS process focuses on **identifying and reinforcing safe behaviors**, with efforts showing a positive correlation between employee and site safety performance. This process is very effective at identifying and reducing risk.
- **Recertified in 2023** as **OSHA Voluntary Protection Program Star Site** – the plant is celebrating over 20 years of STAR status in OSHA's VPP Program.

### COMMUNITY INVOLVEMENT

- **American Chemistry Council (ACC) and Texas Chemical Council member**
- **Community Advisory Panel (CAP)**
- **Education Support - We partner with Lamar Institute of Technology**
- **Southeast Texas Alerting Network (STAN)**
- **Southeast Texas Regional Planning Commission**
- **Southeast Texas Plant Managers**

124 employees

\$35 million in local impact (includes payroll/utility/property taxes)

\$9 million investment in health, environment and safety

3 years without a lost-time injury

#### Certifications

- ISO 9001:2008
- ISO 14001:2004
- RCMS CERTIFIED
- DOT-PHMSA
- Recertified in 2023 as OSHA Voluntary Protection Program Star Site-20 Years

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 91% of Group sales in 2022, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €11.5 billion (\$12.1 billion USD) in 2022, and operates in some 55 countries with 21,100 employees worldwide.
