

HEADQUARTERS AND R&D CENTER IN CARY

North Carolina- USA

Cary, NC has been home to Arkema's Coating Resins business headquarters since 1984. Located on the outskirts of Research Triangle Park, the area is home to many of the world's leading technology companies, as well as three leading U.S. universities. The Research Triangle Park is a bustling center of academic and industrial research.

The Arkema Coating Resins (ACR) Global Headquarters is based in Cary, North Carolina. The business provides strategic direction and innovative research. ACR offers a range of waterborne, solvent-borne, and powder resins along with additives for formulators of architectural coatings, industrial finishes, construction products, traffic paints, sealants, adhesives, inks, floor care, and graphic arts products. The business maintains operations worldwide, providing customers access to products, R&D resources, and sales support spanning many different industry segments.

COMMITMENT TO SAFETY AND ENVIRONMENT

- Site utilizes a Behavioral Based Safety program where all employees are required to make formal observations of onsite activities to improve safety performance.
- Physical improvements to Pedestrian Walkways and Parking Lot configuration to improve safe conditions for employees and visitors.
- No chemical release requiring agency notification nor involving environmental consequences has occurred during the history of operations.

COMMUNITY INVOLVEMENT

- Recognized for 'Outstanding Occupational Safety Performance' (18 yrs. running) by the American Coatings Association

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 91% of Group sales in 2022, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €11.5 billion (\$12.1 billion USD) in 2022, and operates in some 55 countries with 21,100 employees worldwide.
