

## RESEARCH & DEVELOPMENT SITE IN **CARY** North Carolina - USA

**Cary, NC has been home to Arkema's Coating Resins R&D since 1984. Located on the outskirts of Research Triangle Park, the area is home to many of the world's leading technology companies, as well as three leading U.S. universities. The Research Triangle Park is a bustling center of academic and industrial research.**

The Arkema Coating Resins (ACR) Global Headquarters is based in Cary, North Carolina. The business provides strategic direction and innovative research. ACR offers a range of waterborne, solvent-borne, and powder resins along with additives for formulators of architectural coatings, industrial finishes, construction products, traffic paints, sealants, adhesives, inks, floor care, and graphic arts products. The business maintains operations worldwide, providing customers access to products, R&D resources, and sales support spanning many different industry segments.

### THE EXPERTS: CARY SCIENTISTS AND SUPPORT STAFF

The research and product development activities conducted in Cary center around the development of novel waterborne and hybrid acrylic binders. Research is focused on developing products for a wide range of field-applied, factory-applied and functional coatings that are found in paint, adhesives, traffic markings, construction products, and the like, etc. Wherever a surface can be beautified or protected, you will find Coating Resins products.

X employees

\$XX million in local impact (includes payroll/utility/property taxes)

\$XX million Investment in health, environment, and safety

X years without an injury

### Certifications

-List here in bullets the certifications you have, for example ISO; OSHAS; etc. – if you could upload/provide these as well that would be appreciated.

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 91% of Group sales in 2022, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €11.5 billion (\$12.1 billion USD) in 2022, and operates in some 55 countries with 21,100 employees worldwide.
