

PRODUCTION PLANT IN **FORT WORTH**

Texas - USA

The Fort Worth plant is part of the adhesives division of Arkema.

The Fort Worth plant manufactures hot-melt and butyl-based adhesives. It is also a major manufacturer of flashing tapes for the construction industry.

COMMITMENT TO SAFETY AND ENVIRONMENT

→ The company has invested in the plant to improve safety of the employees. These investments include, updating of old machinery that was lacking in current safety guarding, interlocks sensors etc. Installation of fall from height protection equipment, dock lock systems, lifting equipment etc.

51 employees

\$5 million in local impact (includes payroll/utility/property taxes)

\$1 million investment in health, environment, and safety

Less than 1 year without a lost-time injury

Certifications

The plant is currently working towards ISO 9001 certification.

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 91% of Group sales in 2022, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €11.5 billion (\$12.1 billion USD) in 2022, and operates in some 55 countries with 21,100 employees worldwide.
