

## HEADQUARTERS IN **MULBERRY**

Florida - USA

The Mulberry, Florida plant manufactures specialty products for the following industries: fertilizer, mineral processing, asphalt road paving, and industrial ammonium nitrate. Products include dedusting/anticaking coatings for fertilizer, reagents to improve recovery of phosphate and other industrial minerals, and asphalt additives promoting the sustainability of roads. Products are specifically formulated for customers to ensure optimal performance in the field. Our technical service team provides support at the customers site to ensure efficient performance of our products and application systems.

### COMMITMENT TO SAFETY AND ENVIRONMENT

- SafeStart Now – Safety and human error reduction training, a complement to traditional behavioral based safety.
- Sustainability committee – Team to generate and implement ideas to reduce overall environmental footprint.
- Utilizing operational excellence best practices to identify and improve mechanical integrity and problem solving. Implementation of 5S and SMART.

### COMMUNITY INVOLVEMENT

- KidsPACK – Hope and charity for children – Helping hungry children take home food on the weekends.
- Industry Community Advisory Panel (ICAP) – Local companies working together in an open environment with local area residents, meeting each month to share information on our safety programs, learn about topics of mutual interest and answer questions, and address community concerns.
- Central Florida – Local emergency planning commission
- Society of Mining Engineers – Supporting efforts to educate the community on mining, fundraising activities for student scholarships.
- Sponsor of a Greater Winter Haven Youth Baseball team.

### KEY FIGURES 2023

152 employees on site

\$21 million in local impact (includes payroll/utility/property taxes)

\$1.6 million investment in health, environment and safety

5 years without a lost-time injury

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 92% of Group sales in 2023, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around € 9.5 billion (\$10.3 billion USD) in 2023, and operates in some 55 countries with 21,100 employees worldwide.
