

PRODUCTION PLANT IN TEMECULA

California - USA

The Temecula, CA plant produces acrylic adhesives and caulking compounds for the construction industry.

PRODUCTS AND MARKETS

Duo-sil clear 10.1 oz cartridges and Duo-sil white 10.1 oz cartridges. These are used in industrial and residential construction as both a caulking compound to fill butt joints and an adhesive for most building substrates.

COMMITMENT TO SAFETY AND ENVIRONMENT

- Investment to upgrade our fire systems.
- Equipment upgrades to improve safety and output and reduce waste.

14 employees

\$505,000 in local impact (includes payroll/utility/property taxes)

\$57,000 investment in health, environment, and safety

2 years without a lost-time injury

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 91% of Group sales in 2022, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €11.5 billion (\$12.1 billion USD) in 2022, and operates in some 55 countries with 21,100 employees worldwide.
