OILFIELD CHEMICALS
Services and chemicals
for the oil & gas industry

Oilfield chemicals

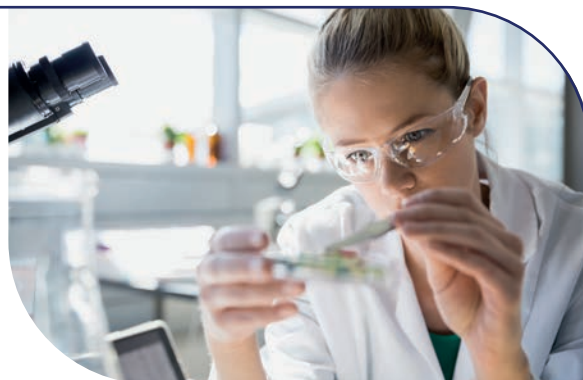

Integrity management

Flow assurance

For more than 60 years, Arkema has developed a strong footprint in the Middle East and Africa where delivery of highly effective and reliable products has allowed our clients to effectively protect their upstream and downstream equipment and ultimately fulfil their planned oil and gas production deliveries.

Over 60 years of innovation

Assurance of the highest quality

The Arkema oilfield chemical plants in France (Feuchy & Chateauroux), and Saudi Arabia (Dammam) feature state of the art, automated facilities which fully comply with stringent international safety, quality and environmental standards.

Our plants are ISO 9001 and ISO 14001 certified.

Arkema operates under a fully integrated management system for the development, manufacture, sale and delivery of its oilfield chemicals.

Innovative chemistries for tailor made solutions

Designing a cost effective oilfield chemical is a complex task. Detailed laboratory studies, followed by field testing are required in most cases.

Arkema products are designed and tested at our Research and Development laboratories located within the Arkema research facility in Lyon, France. Our field engineers benefit from the support of the specialists of a world-class performance chemicals company.

Our experts have direct access to some of the most advanced testing equipment available to assist in the development of innovative products and selecting the best performing and most cost effective solutions for our clients.

Our expertise at your service

In addition to our high quality products, we have developed a talented and experienced team of high calibre service personnel for local field technical support. This is seen as a key component in our ability to respond to the needs of our customers quickly and effectively.

Our experts provide local assistance, advice on application methods, monitor the products performance and adapt treatments to changing operating conditions.

High performance products for your toughest challenges

Arkema offers a complete range of products and a wide choice of formulations that combine many different high performance chemistries to meet our client's needs, specific to each oil and gas operation.

SUBSEA AND DOWNHOLE APPLICATIONS

INIPOL®

Gas hydrate inhibitors, scale inhibitors and scale dissolvers.

PROCHINOR®

Paraffin and asphaltene inhibitors.

NORUST®

Continuous injection and batch corrosion inhibitors.

BACTIRAM®

Biocides.

TOPSIDE OPERATIONS

PROCHINOR®

Demulsifiers, wax inhibitors and defoamers.

NORUST®

Flowline corrosion inhibitors and H₂S scavengers.

INIPOL®

Scale inhibitors.

BACTIRAM®

Biocides.

WATER INJECTION AND PRODUCED WATER RE-INJECTION

NORUST®

Oxygen scavengers and corrosion inhibitors.

BACTIRAM®

Biocides.

INIPOL®

Scale inhibitors.

PIPELINES & TRANSPORTATION

NORUST®

Corrosion inhibitors including top of line protection.

BACTIRAM®

Biocides.

REFINERIES

PROCHINOR®

Emulsion breakers, desalting and antifouling chemicals.

NORUST®

Corrosion inhibitors.

WASTE WATER AND OIL SPILL TREATMENT

PROCHINOR®

Deoilers and oil dispersants.

A strong footprint in middle east and Africa

■ Transition supply agreement ■ Local sales & technical presence ■ Blending capabilities
