

PLASTIC ADDITIVES RANGE

8 NEW PRODUCTS

Acrylic Impact Modifiers

DURASTRENGTH
BY ARKEMA

Products	Typical application
D 360	Anti plateout effect - window profiles / PVC
NEW D 382	
D 365	General purpose - window profiles / PVC
NEW D 365S	
D 340	High performance - Ca/Zn window profiles / PVC
NEW D 380	
NEW D 480	Outdoor durable applications / PC, PC blends

Processing Aids

PLASTISTRENGTH
BY ARKEMA

Products	Typical application
P 550	General purpose calendaring / PVC
P 551	General purpose extrusion / PVC
NEW P 559	Ca/Zn one pack - rigid sheets / PVC
P 530	General purpose foam application / PVC
NEW P 560	Foam sheets / PVC
NEW P 566	Celuka profiles and foam core pipes / PVC
P 770	Anti-sticking / PVC
L 1000	Lubricant effect / PVC

MBS Impact Modifiers

CLEARSTRENGTH
BY ARKEMA

Products	Typical application
W 300	Transparent and UV-resistant profiles / PVC
C 140	High transparency - Low crease-whitening / PVC
C 320	General purpose transparent films, sheets and bottles - Easy fusion / PVC
C 303H	High impact - High transparency / PVC
C 350	High impact and low temperature use - Good transparency for bottles / PVC
C 223	Very high impact for opaque pipes and fittings, technical films / PVC
C 859	Ultra high impact for opaque pipes and fittings, technical films / PVC
E 920	General purpose / PC and PC ABS
NEW E 950	High impact - Low temperature use / PC and PC Polyester blends

Impact and Processing Modifiers for biopolymers

BIOSTRENGTH
BY ARKEMA

Products	Typical application
B 150	High impact modifier for opaque thermoformed sheets and injection / PLA and biopolymers
B 280	Clear impact modifier / PLA and biopolymers
B 700	Melt strength enhancer / PLA and biopolymers
B 900	Metal release modifier / PLA and biopolymers

Matting Agent

ALTUGLAS
BY ARKEMA

Products	Typical application
BS 100	Matting and frosting effect / PVC
