Arkema's Pebax® Powered™ material set to Stretch the Limits™ at The Materials Show in Portland, OR

Pebax® thermoplastic elastomers have decades of experience in the sports industry. At The Materials Show, September 16-17, in Portland, OR, Arkema will showcase high-performance sports applications in which Pebax® materials can Stretch the Limits™.

Arkema's $\underline{\text{Pebax}^{@}}$ thermoplastic elastomers are known for their contributions to high-performance sports equipment. Now this power brand has engaged with the most prestigious names in the sports industry, leading to the creation of a cooperative $\underline{\text{Pebax}^{@}}$ $\underline{\text{Powered}^{\text{TM}}}$ program geared to athletes who seek excellence without compromise.

Stretch the Limits™ with high-performance properties

Pebax[®] Powered[™] sports equipment benefits from a variety of high performance properties. Likewise, Pebax[®] Powered[™] athletes around the world can boost their game beyond the competition and Stretch the Limits[™] of their performance.

Key properties:

Pebax[®] Powered[™] video lineup

Recent competitions between Pebax® material and TPU have showcased the important performance properties for sports equipment. Luckily these contests have been <u>captured on film</u> and attendees at The Materials Show on September 16th will have the first look. Visitors to booth #716 will discover which material prevails and have an opportunity to talk with our product and market experts. We want to discuss opportunities, push the boundaries, and Stretch the Limits™ of the sports industry with you.
