## ARKEMA INTRODUCES TIPPOX™ 2028 THERMAL STABILIZER FOR PMMA

**Arkema is pleased to announce the launch of TippoX™ 2028 stabilizer, the optimized stabilizer solution for the growing base of customers in PMMA production around the globe. TippoX™ 2028 stabilizer offers a new approach to traditionally utilized methods of handling thermal degradation.**

Arkema's long history of providing expertise in the PMMA industry uniquely positions the Group as a specialty material provider to resolve challenges customers encounter.

TippoX™ 2028 stabilizer expertly addresses the issue of PMMA thermal stabilization, which is essential for efficient processing. By enabling higher processing temperature and higher throughput, while reducing defects and VOCs, TippoX™ 2028 stabilizer saves customers on operational costs.

TippoX™ 2028 outperforms typical competitor stabilizers, limiting bubble formation, and improving thermal stability with no compromise in mechanical properties, as it may happen with acrylate co-monomers.

**TIPPOX™**  
2028

"We are very excited to launch our TippoX™ 2028 stabilizer," said Paul Guillaume Schmitt, Specialties Business Manager for Arkema. "Helping PMMA players to achieve higher performance and potentially lower VOCs is another example of how Arkema is delivering solutions for a more sustainable world."

TIPPOX™ is a trademark of Arkema.

Building on its unique set of expertise in materials science, **Arkema** offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive solutions, Advanced Materials, and Coating Solutions - accounting for some 85.5% of Group sales in 2021, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters an ongoing dialogue with all its stakeholders. The Group reported sales of around €9.5 billion (\$11.2 billion USD) in 2021, and operates in some 55 countries with 20,200 employees worldwide.
